Superintendent's Report

To the Superintending School Committee and the
Citizens of the Clarksville School District:

General

The world goes to school. Perhaps nothing in the history of the world has ever been supported by a consensus of belief more universal than that which sustains education today. Social, economic, political, and religious interests are equally bound up in the educational system. It serves, not one interest, but all. The leading telic force within the state by which it may hope to perpetuate itself and direct the growth of society is education.

Through the schools of today, even more than ever before, an effort is being made to instill into the very nature of each boy and girl the ideals of fair-play, truthfulness, cooperation, and loyalty. A school should not be judged by its size or its complicated machinery. The criterion should be the service which the school renders to the pupils and the community of which they are a part. The facts are that that community prospers most whose boys and girls have received a comprehensive and well rounded education.

Enrollment and Attendance

The enrollment is at present smaller than last year. The attendance has been rather poor this year. There are three tuition pupils, two at Pittsburg High and one at Canaan High.

Teachers

The teachers this year are: upper grades, Alma Chappell, Plymouth Normal School, and Lower Grades, Hallie Weir, also of Plymouth Normal. Both have had considerable previous teaching experience.

Buildings and Equipment

The School Building is in good condition. During the past summer the roof was resingled, the outside painted and the desks were varnished. The hall floor was laid and the walls celotexed. Various other minor repairs were also made.

Health

The following is a summary of the work of the school nurse:

Individual inspections	287
Home Calls	28
Treatments at school	15

Physical Defects:

Teeth—10. Corrections—6.

Tonsils—7.

Adenoids 7

Vision—7. Corrections—3.

Malnutrition—3. Improved.

Skin Diseases—6. Under treatment.

There is need of dental work and throat work, but funds have not been available for clinics.

Notes on the Budget

The total amount of the School Board's 1936-37 budget is \$5,119.50 as compared with \$4,940.12 for 1935-36. The expended income is \$324.50 for State Aid, and an estimated balance of \$200.00. Total \$524.50. Approval of the budget would therefore require that \$4,595.00 be raised by taxation.

Conclusion

I wish to thank the School Committee, teachers, parents and friends for the interest and support that they have given to the schools during the past year.

Respectfully submitted,

ALBERT P. KNIGHTLY,
Superintendent of Schools.
